Lighting

Owner

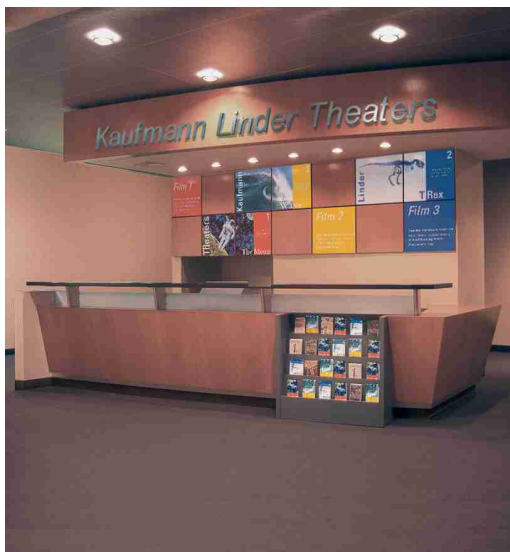

American Museum of Natural History

Date of Completion

1998

Kaufman and Linder Theaters

Reception Desk

Over the past five years we have provided ongoing assistance to the American Museum of Natural History on a variety of projects.

The Kaufman and Linder Theaters.

Completely rebuilt these two state-of-the-art theaters, with 350 & 150 seats enable AMNH to offer a wider array of programs, conferences and visitor activities.

NSCLET Offices.

The National Center for Science Literacy, Education, and Technology is a unique Federal facility located within AMNH. Rehabilitation and conversion of existing spaces provided NSCLET the modern, computer capable offices needed to carry forward their mission.

NASA Digital Galaxy Offices.

Funded by a grant from NASA, this new facility will house astrological animators working on state of the art computer systems to create digital models of the universe. Digital Galaxy's work will be the information feed for visual displays in the new Hayden Planetarium.
