Private

Date of Completion

1990

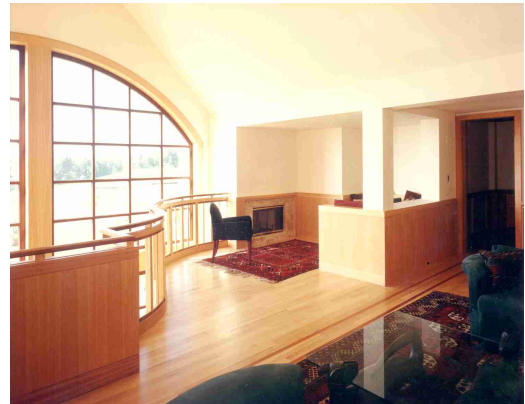

Exterior View

The Wood Pond Conference Center was planned as the centerpiece of a forty acre arboretum designed to display idealized plant habitats that exist between the middle United States and Canada. The architecture draws reference from the turn of the century mansions of the Hudson River Valley and the many traditional shingle-style residences of the northeast.

The complex consists of 3 1/2 story main building, flanked by two one-story pavilions. The central building houses major public functions on the first level and bedroom suites on the upper floors. The east pavilion contains a swimming pool, greenhouse and a spa room. The west pavilion contains a central octagonal two story library several sitting rooms and a sound studio. The lower levels of the building house a complete health club complex, including a basketball court, exercise and aerobics spaces, spa and locker facilities, children's play and rumpus room, media center and mechanical rooms.
